1.2 Generation of TPIN through CDSL

Link for CDSL TPIN generation: <https://edis.cdslindia.com/Home/GeneratePin>

Generate TPIN

Generates TPIN for E-DIS Transactions.

Progress indicator: BO Details (active), Enter OTP, Thank you

BO ID : 1302340000605081

PAN :

Next

1. Enter Client BO ID and Pan

2. Click Next

Generate TPIN

Generates TPIN for E-DIS Transactions.

Progress indicator: BO Details, Enter OTP (active), Thank you

Alert! OTP is sent to Registered Mobile No : *****316 and Email ID : JA*****7@GMAIL.COM

OTP : Enter OTP

Important Information :

Your OTP is valid for 15 minutes from the time of request. If you have not used the OTP to login within 15 minutes, please request for a fresh OTP.

[Click here to get a fresh OTP](#)

Next

3. OTP will be received through client registered Email id and Mobile number

4. Enter OTP and Click on NEXT

Generate TPIN

Generates TPIN for E-DIS Transactions.

Please click [HERE](#) to go back to login page

Thank You

Your TPIN is generated successfully and has been sent to your registered Mobile No : *****316 and Email ID : JA*****7@GMAIL.COM

5. TPIN for client BO ID will be generated and Sent to Client registered Mobile and Email id.

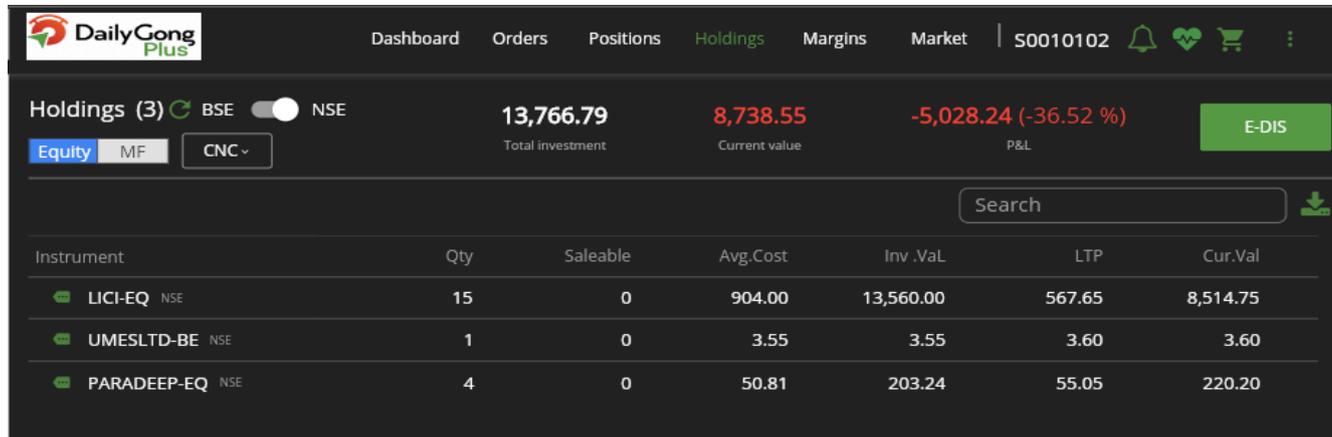

6. TPIN will be remain same, save it and use it for future transaction also.

(If TPIN has missed / forgot redo the same process client will receive new TPIN)

ISS Enterprise Limited

1.3 Sell Holding Using EDIS:

As mentioned above in 1.1 Holding screen for Edis Process

The screenshot shows the 'Holdings' section of the DailyGong Plus interface. It displays a summary of holdings for client S0010102, including total investment (13,766.79), current value (8,738.55), and P&L (-5,028.24, -36.52%). A table lists three instruments: LIC-I-EQ, UMESLTD-BE, and PARADEEP-EQ, with their respective quantities, saleable amounts, average costs, and current values.

Instrument	Qty	Saleable	Avg.Cost	Inv.Val	LTP	Cur.Val
LICI-EQ NSE	15	0	904.00	13,560.00	567.65	8,514.75
UMESLTD-BE NSE	1	0	3.55	3.55	3.60	3.60
PARADEEP-EQ NSE	4	0	50.81	203.24	55.05	220.20

PARADEEP-EQ <small>NSE</small>	4	4	50.81	203.24	55.15	220.60	17.36

9. Refresh on holdings now Dealer / Client able to sell the shares.

FAQ of E-DIS

1. What is eDIS?

Ans. Electronic Delivery Instruction Slip or eDIS is a facility which allows you to sell shares when you have not submitted your DDPI.

Please note: You can only sell the stocks you are holding in your linked Demat account. You may submit your DDPI to ensure a seamless trading experience.

2. How do I avail of the eDIS facility?

Ans. eDIS is activated automatically on our digital trading platforms for all customers who have not submitted their DDPI.

3. Is this facility available to all account holders?

Ans. eDIS facility is available only to Demat accounts which are in single name. It is not available to Demat account holders with joint names and NRI Demat accounts.

4. Why do I need to authorize a transaction to sell scrips that I own?

Ans. In the absence of DDPI, without eDIS authorization (on the day of the transaction or before that), you will not be allowed to place a sell order.

5. Is eDIS applicable for intraday transactions as well?

Ans. eDIS is only applicable for delivery-based transactions for shares in your Demat account.

6. What is the maximum validity (number of days) period up to which I can authorize eDIS?

Ans. 1 calendar day (for CDSL and NSDL).

7. Can I sell first and authorize later?

Ans. For transactions through eDIS, you will have to authorize your trades before executing a 'sell' transaction.

8 What is BOID/Demat account number and where can I find mine?

Ans. BOID or Beneficiary Owner Identification Number is a 16-digit number used to identify your Demat account, which is unique for every client. The first 8 digits are the Depository Participant ID, and the last 8 digits are the client ID with the

DP. You can find it on the eDIS authorization screen on the web portal as well as the mobile app.

9. Do I have to sell the entire authorized quantity within the stipulated time selected?

Ans: Authorization is only a declaration of the scrips with the quantity that you wish to sell within a stipulated time. You reserve the right to sell only a partial quantity OR not sell at all, even after the authorization has been given for the concerned equities.

10. What happens after the validity of my authorization expires?

Ans: Once your authorization has expired, you are required to authorize again.

11. Can I sell shares without an authorization?

Ans: You will not be allowed to sell shares without an authorisation.

12. How can I execute a regular sell without giving authorization?

Ans: You need to submit your DDPI either at the nearest branch OR courier it to our customer care department.

13. If I have submitted the DDPI, will the eDIS feature be available for my account?

Ans. Once the DDPI is received and registered in the Demat account, the eDIS functionality will be discontinued for your trading account.

14. Will I be able to buy shares without pre-authorization?

Ans. eDIS authorization is not required for buying shares, but only for the 'sell' transactions.

15. Can I only authorize equity quantities available in my Demat balance, or am I allowed to authorize more than what is available in my Demat holdings?

Ans: You can authorize only those equity quantities that are present in your Demat. You can authorize partial quantities from your Demat balance or the entire quantity for the selected equities. But the quantity cannot exceed the balance available in the Demat account.

16. Can I revoke my Power of Attorney and use the eDIS functionality of sell transactions?

Ans: You cannot revoke the existing DDPI to avail the eDIS functionality.

17. What is CDSL TPIN/NSDL MPIN?

Ans: TPIN/MPIN is an authorization code generated by CDSL/NSDL respectively, using which the customer validates/authorises the transaction.

18. How do I authorize my transaction from my Demat account?

Ans: CDSL Demat holder needs to authorize transactions with the help of TPIN and OTP generated/provided by CDSL.

NSDL Demat holder needs to authorize transactions with the help of MPIN and OTP generated/provided by NSDL. Without these, one cannot proceed with any 'sell' transactions.

19. How many digits will the TPIN/MPIN be?

Ans: The TPIN/MPIN will be of 6 digits.

20. How will I get my TPIN/MPIN?

Ans: You will get the TPIN/MPIN on your email id and mobile number as registered with Depository Participant from CDSL/NSDL.

21. What is the validity of my TPIN/MPIN?

Ans: TPIN/MPIN is valid until the same is reset by the Demat account holder.

22. Will I get a new TPIN/MPIN every time I authorize a transaction?

Ans: TPIN/MPIN generation is a one-time activity, just like the password. You will have to use the same TPIN/MPIN every time you authorize a transaction until you change it on the respective Depository's portal.

23. What if I enter a wrong TPIN/MPIN?

Ans: If you enter a wrong TPIN/MPIN, you will not be allowed to authorize transactions. On entering an incorrect TPIN/MPIN thrice consecutively, your existing TPIN/MPIN will become invalid, and you will need to generate a new one.
